1. We have discovered that almost invariably we have competing demands among our customers (including ourselves) for the single copies of ER's, EM's and CM's presently being received. We wonder, therefore, if you could automatically send 25X4X copies of these documents in the future.

2. In view of [REDACTED] major role in world shipping and shipbuilding, we believe that EM 61-15 (Annual Review of Merchant Shipping in the Sino-Soviet Bloc) would be of unusual interest to the [REDACTED]. If this report is releasable, we would appreciate receiving a sanitized copy. A sanitized copy of EM-34 (Current Problems of Soviet Agriculture) is also requested for the same purpose.
